### **CENTENNIAL - REVOLUTIONS – ELEVATE – MADERA - PROMISE**

Centennial, Revolutions, Elevate, Madera & Promise product lines feature an Ultra-Violet finish on all exposed surfaces by utilizing spray UV and roll-coat UV technology. Our UV Advantage makes Indiana Furniture a leader in wood casegoods finishing.

### **CUSTOMER BENEFITS**

#### **Clarity**

A cured UV Advantage finish magnifies the beauty of our sensational wood finishes and reduces the darkening, ageing, and yellowing process of wood furniture that naturally occurs over time. Other topcoats may not protect the wood causing the furniture to age and yellow at a much faster rate.

#### **Durability**

Our UV Advantage finish ranks an outstanding five out of five in durability tests. Other topcoat finishes commonly rank three or less.

#### **Hardness**

The hardness of our UV Advantage finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UV Finish performs much higher in this category compared to other topcoats including lacquer and varnish.

### **ENVIRONMENTAL BENEFITS**

#### **Safe Office Environments**

Once cured by UV lighting, our UV Advantage finish does not emit irritable toxins, formaldehyde, or solvents into the air. This creates safe work environments within new furniture installations.

#### **Air Pollution**

Our UV Advantage finish process greatly reduces hazardous air pollutants, which contribute to smog formation. UV Finish is recaptured over and over again reducing waste material.

#### **Employee Health**

Automated finish spray technology and enclosed spray booths eliminate exposure to sprayed chemicals in our factories.

**At Indiana Furniture, we continuously look for new ways to improve our manufacturing processes and make responsible environmental choices for the betterment of our planet.**
